# NextGen Security: S-CaaS Compliance-as-a-Service

## Agility and Scalability

Accelerate security governance to address challenges of data overload, time constraints, scattered resources.

## Operational Simplicity

Automate AI-optimized workflows to increase efficiency through intelligent probing to address complexities across BU's

## Rich Analytics

Actionable end-to-end insights to measure, predict, understand, and remediate the application experience of today's security landscape

NextGen Security Compliance-as-a-Service (S-CaaS) customizes security governance for diverse setups, automating practices with continuous monitoring with help of advanced AI security agents.

## Simplified Tracking

**5x More Efficient**

## Quick Onboarding

**Automated & Error-free**

Ready to use in an hour

## Single Sign On

**3x Faster**

## Visibility & Control

**Prediction & Insights**

Access to rich analytics & AIOps
